## Annual E-Governance Report 2019-20

### Administration:

The Institute went back to VRIDDHI Software for admission formalities of students at the Institute. The Student Data of AY 2018-19 was updated on the same. It helped to generate Fee Receipt, Roll Nos, various reports like Caste wise Summary, Age wise Summary, amongst others.

### Finance and Accounts:

The Institute always advocated using online modes of payment. However, the students preferred to pay the fees in cash. With the pandemic, the Institute achieved the objective of doing all the financial transactions on an online basis.

### Student Admission and Support:

The Institute was the authorized Facilitation Centre appointed by Directorate of Technical Education (DTE). Accordingly, document verification was done online for all the students who visited the campus.

Online confirmation of admission for each student was done who reported to the Institute through the Centralized Admission Process

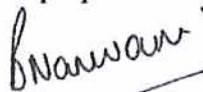

The Institute believes in enhancing the scope of E-Governance. With the advent of Covid-19 pandemic, overnight our way of functioning changed. The institute acquired Microsoft License to shift to online mode of teaching. On account of lockdown, the following changes were observed in Student Admission and Support

- Online lectures via MS TEAM
- Study Material was uploaded on TEAMS.
- Home Assignments were done by the students and were uploaded on the Google Form link shared by the Institute.

### Examination:

The University decided to conduct the exams in MCQ format on account of pandemic. The faculty developed the database and practice was given to the students. Google Form was used extensively to conduct Mock MCQ Test.

It is proposed to enhance the scope of e-governance in upcoming years.

## Annual E-Governance Report 2020-21

E-governance is the integration of Information and Communication Technology in all the working processes of the Institute. It aims to minimize the manual efforts and improve communication, create transparent systems, and to be cost and time effective. The success of any such initiative will then depend on the translation of such ideas/requirements into processes, which will be followed by its effective implementation.

SVIMS keeps pace with the recent applications of e-governance in terms of various functions being performed digitally through internet. The necessary infrastructure is provided by the Parent Body – Sadhu Vaswani Mission, and partly by the affiliating University – Savitribai Phule Pune University, State Government agencies, AICTE, etc.

### Planning and Development

Online official communications regarding planning and development are realized through e-mails and messages. Proposals for infrastructural development, seminars & workshops, various grants and scholarships are prepared and submitted online to concerned organisations including state government and sanctions are obtained through the same mode. Necessary budget allocations for various schemes including research projects are also realized digitally through net-banking and other online modes. Various MIS modules are an integral part of the data and information transfer process between the Institute and the University, State Government Agencies, etc. The following main organisational assignments are carried out online-

- Working with various web-based MIS modules,
- Communication through e-mails to State Government and other agencies,
- Proactive disclosure of ceaseless information on its website.
- Large scale computerisation.
- Conduction of computer awareness programs for teachers and students,
- Management of e-library

Proper training for working on different user interfaces is organised throughout the year. Apart from maintaining online MIS & other data formats up-to-date and keeping hardware and software inventory of Institute up-to-date & accurate, new proposals for conduction of online courses and development of IT based infrastructure is also initiated by the Institute. A dedicated WhatsApp Group has been created at institution level for sharing orders, information, direction and discussion on a common platform.

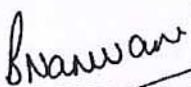

## Finance and Accounts

TALLY is used for recording accounting transactions and preparation of financial statements. Appropriate security measures are in place to ensure confidentiality of data and prevent unauthorized access.

Keeping the philosophy of E-Governance at its core, all financial transactions have become cashless. The salaries of employees including examination remunerations are paid online through NEFT/RTGS and rarely by cheques. All payments to vendors/service providers is executed cashless to maintain transparency and financial accountability in the system. Key highlights:

- Online payment of examination and admission fees by students.
- All kind of payments including salaries to staff-members through NEFT/RTGS.
- Disclosure of Financial Statements on website.
- Conduction of computer awareness programs for office-staff.
- Management of Institute's Bank Accounts with nationalized banks with maintenance of proper ledger at Institute level.
