7.1.3 INSTITUTIONAL ENVIRONMENT AND ENERGY INITIATIVES ACTION TAKEN REPORT AND ACHIEVEMENT REPORT

PREFACE

Championing Sustainability: Nurturing a Green Campus at Sadhu Vaswani Institute of Management Studies for Girls, Pune

At Sadhu Vaswani Institute of Management Studies for Girls, Pune, we recognize our profound responsibility as stewards of the environment, alongside our commitment to advancing higher education. Adopting green living habits aligns with our institutional goals and contributes to creating a sustainable and more liveable planet. Our institution strives to weave the principles of the green movement into the fabric of our daily operations.

To solidify our dedication to sustainability, we have incorporated a Green, Energy, and Environment Audit into our policy documents, underscoring our commitment to applying eco-friendly practices in our day-to-day activities.

We have engaged in three external audits, conducted in collaboration with ENGRESS Consultants, which is MEDA registered, ASSOCHAM GEM CP certified, ISO-9001-2015 certified, and an ISO-14001-2015 approved organization, during the periods 2022-2023, 2021-2022, and 2021-2020. Experts from the external agency visited our campus, studying our ecosystem and evaluating our energy and water resource utilization and green practices. Our institutional authorities have thoroughly reviewed the detailed reports provided by the external agency. After this, corrective measures have been implemented, and interventions have been undertaken to further enhance our institution's sustainability practices.

To ensure the continued success of these practices, the Director immediately circulated Green Guidelines: Nurturing Sustainable Practices at Our Institute for adherence to sustaining our commitment to a greener and more eco-friendly campus.

NOTICE

23.05.2023

Green Guidelines: Nurturing Sustainable Practices at Our Institute

1. Report any malfunctioning or inefficient lighting for prompt replacement.
2. Regularly check and maintain the efficiency of electrical appliances
3. Make conscious efforts to maximize natural daylight by utilizing available windows and openings. Turn off unnecessary lights during daylight hours.
4. Support the optimal functioning of the rooftop solar PV plant. Report any issues promptly to the designated maintenance personnel.
5. Adhere to the waste segregation guidelines—separate waste into categories such as recyclables, nonrecyclables, and hazardous materials at the source.
6. Dispose of food waste in designated bins for conversion in the biogas plant. Avoid contamination with nonbiodegradable waste.
7. Do not dispose of sanitary waste in regular bins. Report any issues with the incinerator for immediate resolution.
8. Report any leaks or issues related to liquid waste management.
9. Support rainwater harvesting efforts by avoiding activities that may contaminate collection points. Report any damages or inefficiencies in the rainwater management system.
10. Respect the internal roadways and planted areas. Refrain from littering or damaging trees. Report any damage or safety concerns.
11. Keep the ramp accessible and transparent at all times. Report any obstacles or issues affecting accessibility promptly.
12. Actively engage in water conservation efforts. Follow guidelines for water usage and report any leaks or waste.

WATER CONSERVATION- JAL SHAKTI ABHIYAN 08.04.2023

Jal Shakti Abhiyan at SVIMS focused on raising awareness about water conservation and the urgent need to save natural resources. Students participated in poster making, a session on water wastage, and a special sanctuary featuring a letter from former President of India, Dr. APJ Abdul Kalam. The event aimed to educate students about the importance of water conservation and encourage them to take a pledge to save water for future generations.

WASTE COLLECTION DRIVE 10 AND 11 MARCH 2023

A waste collection drive of Old clothes, E-waste, Old books and papers and Plastic waste – bottles, wrapping material, single use plastic was organised.

The students contributed to the drive by bringing and collecting the waste from their homes and societies. SVIMS collaborated with Swachh (V Collect) for collection of the waste. The Swachh representatives visited the Institute on 14th March for collection. The aim to conduct this drive was to create awareness and sensitize the students towards reducing hazardous disposal practices and working collectively towards a better environment and a green future. Swachh, under their VCollect initiative offers refurbished products to the underprivileged for their use.

PARENTING A PLANT (ENVIRONMENTAL CONSERVATION)

13-01 2023

Under the direction of Ms. Sonali Joshi, students took the initiative of “parenting” a plant as part of their “Go Green” campaign. The purpose of this exercise was to instil a sense of obligation towards nature and teach participants how to care for a plant as a mother would for one of her children, in addition to planting trees. Students were required to visit a nursery and buy a sapling as part of this exercise, which helped them learn about the various types of plants. Additionally, students studied plant grafting methods. Each student had to take care of their own Plant, water it regularly, and keep track of its development as part of the exercise.

Every plant had a unique style of growing, and every plant used a distinct amount of water. All of the students took part with great enthusiasm. Each student left this

WORLD ENVIRONMENT DAY- ECO SYSTEM RESTORATION HEALING THE EARTH 06.06.2022

Resource Person: Mr. Arpo Mukherjee, Sr. Programme Associate, International Forum for Environment, Sustainability and Technology

Mr. Arpo Mukherjee apprised the audience about the state of our lands, the state of our oceans, wealth vs material consumptions, the climate crisis, the local challenges and the solutions that can be adopted to overcome these challenges. He spoke about ecosystem restoration – an important nature-based solution for food insecurity, climate change, and biodiversity loss. It is not a quick or easy process; it will require changes in the way we measure economic progress to how we grow food and what we eat. But the beauty of ecosystem restoration is that it can happen at any scale – and everyone has a role to play in it.

He requested everyone to write down their current and sustainable practices in context of use of transport, handling waste management, electricity, food, life on land etc. This exercise made the participants reflect on their actions and brought in a realisation that action rather than talking is required to save our planet. He urged the attendees to take the environment pledge and put it on their LINKEDIN profiles for better reach and practice of sustainable initiatives.

To make sure these practices kept working, the Director sent out Green Guidelines right away: Promoting environmentally-friendly habits at our institute to keep our promise of making the Institute greener and friendlier.

NOTICE

24.05.2022

Green Guidelines: Nurturing Sustainable Practices at Our Institute

1. Tell someone about any broken or inefficient lights so they can be fixed immediately.
2. Make sure to check and keep the efficiency of electrical appliances regularly
3. Use all available label windows and as much natural light as possible. During the day, turn off any lights that aren't needed.
4. Report any problems with the rooftop solar PV plant immediately to the repair staff in charge.
5. Follow the rules for sorting trash—sort trash at the source into groups like recyclables, nonrecyclables, and dangerous materials.
6. Put food trash in the correct bins at the biogas plant to turn it into biogas. Do not pollute with trash that does not break down.
7. Do not put bathroom waste in regular trash cans. If you notice any problems with the shredder, you can get them fixed right away.
8. Report any leaks or problems with managing liquid waste.
9. Help people collect rainwater by not doing things that could make gathering points dirty. Please let us know about any problems or damage to the rainwater treatment system.
10. Be careful on the main roads and in the planted areas. Don't throw trash around or hurt trees. If you see any damage or safety issues, tell someone.
11. Always make sure the ramp is straightforward to use. Report any problems or obstacles right away that make something hard to reach.
12. Take an active role in attempts to save water. Follow the rules for how much water to use and report any waste or leaks.

E- WASTE DRIVE 30-05-2022

E-waste, discarded electrical or electronic equipment, is dangerous due to toxic chemicals released when burned. SVIMS conducted an E-waste collection drive on 30th May 2022, collaborating with Swachh, Pune. Around 200kgs of E-waste was collected by students and staff, who urged their societies and friends to contribute. The collection was donated to a sustainable Swachh center in Aundh. The activity highlighted the amount of e-waste generated in households and encouraged students to switch to rechargeable batteries for sustainability.

 <p>SADHU VASWANI INSTITUTE OF MANAGEMENT STUDIES FOR GIRLS, PUNE</p> <p>E-WASTE COLLECTION DRIVE</p> <p>• DATE: 30th May 2022 • TIME: 9:00 am to 3:00 pm • SVIMS Institute</p>	 <p>SWACHH E-Waste Certificate</p> <p>MPCB-Certified E-Waste Collection Center</p> <p>This is to certify that SWACH Pune received 20.2 kg of e-waste on 30th May 2022 from Sadhu Vaswani Institute OF Management Studies For Girls, Koregaon Road, Pune-411001</p> <p>Thank you for adhering to the GoI's E-Waste (Management) Amendment Rules 2018. GREEN VIBES ONLY

NOTICE

18/04/2022

This is to inform all the students that an exciting and eco-friendly activity, "Green Vibes Only," will be organized on 25th April 2022. The objective of this event is to promote environmental awareness and foster a sense of responsibility towards our planet.

Date: Monday, 25th April 2022

Time: 10.00 A.M

Venue: SVIMS Institute

Requirements: Plastic Bottles, Glass Jars, Hydroponic Plants, Scissors/Cutters, Pebbles/Stones, Decorating Items, etc.

Instructions: Please bring the mentioned items on the day of the activity.

Wear Green Colored Clothes to contribute to the vibrant and eco-friendly theme.

This hands-on activity will not only enhance your creativity but also provide valuable insights into sustainable living practices. Let's come together to make a positive impact on our environment.

GREEN VIBES ONLY

25.04.2022

On 25th April 2022, all “Green Vibes Only” participants reported at SVIMS wearing their green outfits at 10:00 am with the following items -

1. Hydroponic plants
2. Stones and pebbles
3. Bottles and jars
4. Pair of scissors and cutters
5. Paints and other decorative items

The students began the activity by cutting out the bottles in half. The bottles and jars were then painted using beautiful colours of paints.

Hydroponic plants were finally set/ planted in the beautiful bottles and jars filled with water and pebbles.

Students placed these oxygen rich elements on the stairways and windows further decorating the campus of SVIMS.

This activity enhanced team spirit and love towards Mother Earth. It also encouraged the students to create 'Best out of Waste'.

Hydroponic plants planted in the beautiful bottles and jars filled with water and pebbles.

**WATER CONSERVATION-ADOPTING A FEW HABITS
TOWARDS WATER CONSERVATION JALSHAKTI ABHIYAN
08.04.2022**

Water Conservation – Adopting a Few Habits Towards Water Conservation

Ms. Sonali Joshi, faculty member, conducted the program on Water Conservation. She began by welcoming everyone to the event. She covered the following points in her session:

Glass Half Full – as a practice at SVIMS, the water is served in the glasses only till the half level of the glass so as to ensure that even if a guest only sips water, there is not much water wastage.

Size of the glass – two glasses from the office pantry were taken and the water quantity was measured. One glass was short and the other one was taller. However, the water retaining quantity for both was the same. The perception of the size of the glass too makes a difference as to how people consider consumption of water.

Reusable Water Bottles – SVIMS does not support single use plastic. Therefore, all students and employees are advised to use reusable water bottles and refill the bottles as and when needed.

Half Flush – Full Flush – the attendees were also made aware of water conservation practices in the washrooms. The concept of Full flush and half flush was introduced to them.

Dripping Taps – The need to be observant and take actions towards dripping taps anywhere – roads, homes, gardens, offices – was reiterated. Every individual must feel responsible for closing any taps that may be found dripping or open without a purpose.

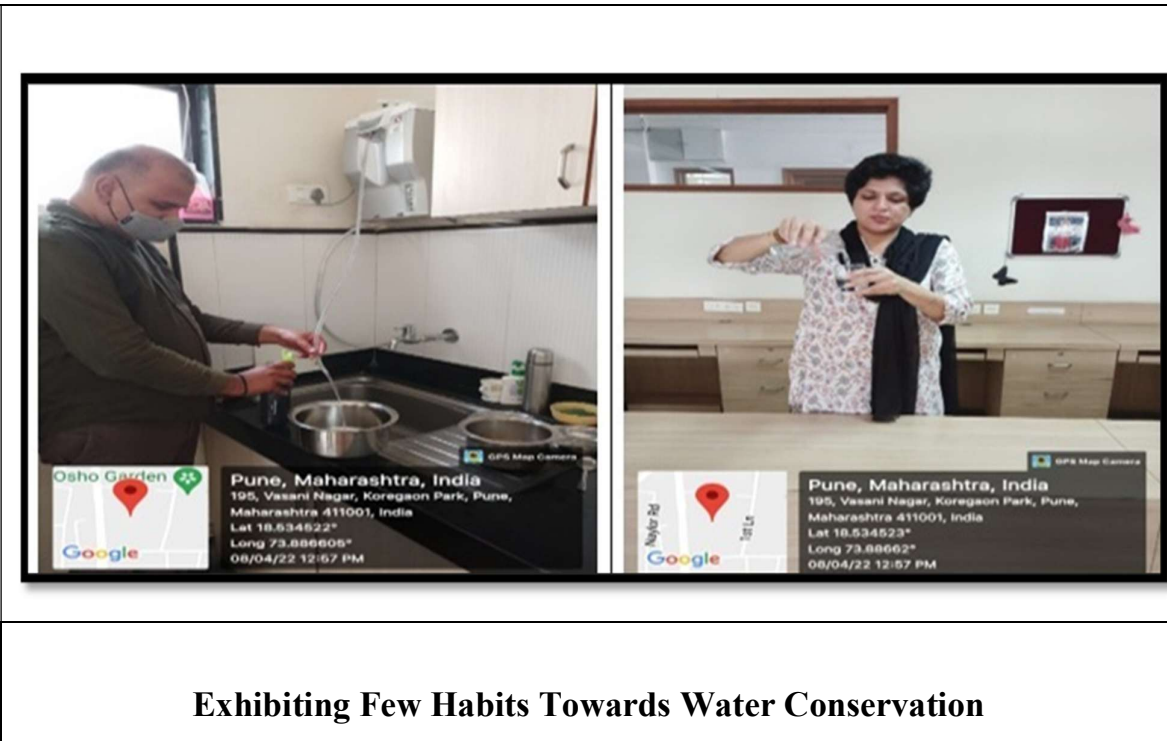

Filling up of Water from the Water Purifier– Bottles must be kept ready to be filled at the water purifier station in order to reduce wastage of water. The water from the machine should not be left open if there is a time lag between two bottles to be filled.

Reusing the Water – any water that has been left in glasses or in bottles must be accumulated in a bucket to be used for cleaning of the floors. If no

disinfectant has been put in such water, then the same water can be used to water the plants.

- Dr. Divya Lakhani shared her experience about how water conservation habits were inculcated in every new member in their home.
- The students also were encouraged to take the Water Conservation Pledge and upload their videos on the provided link.

Swachhata Pakhawada 1 Sep to 15 September 2021

SVIMS observed swachhata pakhawada with full zest and enthusiasm on online platform due to covid pandemic. All staff members along with their students actively participated in 'Sawachh Pakhawada' as per the schedule decided by the Institute between September 1st, 2016 and September 15th, 2016. Dr B H Nanwani, Director Inaugurated the Swachhata Pakhawada 1 Sep 2021 on online platform.

In her inaugural speech, she expressed her views about the Cleanliness of our body, mind, dress, home, surroundings, and other work area. Cleanliness of the body is very necessary for our physical and mental health. Cleanliness of the surrounding areas and environment is very necessary for the social and intellectual health.

Dr Abhijeet Kaiwade addressed the participants as cleanliness always improves the confidence level and self-respect as well as respect from others. It is a good habit which keeps us always happy. It makes us feel very proud in the society. Cleanliness is very necessary to maintain our healthy lifestyle and standard of living.

01 September 2021

Inauguration and Swachhata Pledge taken by students and staff members. Dr Abhijeet Kaiwade shared the plan of action for next 15 days.

02 September 2021

Healing Body and Mind - <https://www.youtube.com/watch?v=gfp1J3yrzy8>

Ms Vaishali Patil shared the above video of Dada J P Vaswani – in this we learned still the mind, relax the body and produce a state of inner harmony.

03 September 2021

Change your attitude change your life -
<https://www.youtube.com/watch?v=mAHC1wmmrok>

Ms Bindiya Rangwani shared the video and discussed on change your attitude of 'this is not my home this is road or outside home'.

4 & 5 September 2021

Weekly off, requested all staff members and students to clean their homes.

6 September 2021

Clean The Stains on Your Mind by Sister Shivani -
<https://www.youtube.com/watch?v=VHwSx29o9lo>

In her teaching she said – "Soul power increases when we start charging ourselves through daily meditation, emphasizes BK Shivani. When we are enriched from within, our expectations reduce, and we won't need people to be our way. We accept them, forgive them, and remain happy."

The topic of the day is really haunting every day in every one's mind but we don't know the solution. In that very moment Sister Shivani answered our queries through her beautiful and heart touching speech.

07 September 2021

Group discussion on Smart and Clean city, students given various ideas with example of their cities. During discussion urbanization and Go-Green point is come up in a such a way that everyone said this point is the need of the time issue, as In urbanization we are lagging in Go green. Director madam appealed students and staff members to plant a tree in your nearby area.

08 September 2021

Dr Smita Iyer spoke about the Importance of Hygiene. Hygiene means cleanliness of the body Maintaining personal hygiene and sanitation is important for several reasons such as personal, social, psychological, health, etc. Proper hygiene and sanitation prevent the spread of diseases and infections.

09 September 2021

Natural Water Conservation - with special emphasis on Rainwater Harvesting, Watershed Management and Water Purification

Ms Deepali Chanchalani shared her thoughts on natural water conservation with slogans of 'Conserve water, conserve life', 'Save water, and it will save you', 'A drop of water is worth more than a sack of gold to a thirsty man'.

10 September 2021

Plastic Awareness - Plastic pollution is today one of the most serious environmental problems affecting the oceans. Plastic Awareness is changing human attitudes about and behavior toward plastics and reducing plastic pollution. The Plastic awareness campaign helps people understand the impacts of plastic pollution on human and ecosystem health and how everyday actions can lessen the problem. Plastic awareness can help to change the way that plastic is viewed, used and managed as waste.

11 September 2021

Ms Vaishali Patil spoke about cleaning of expired medicines and obsolete equipment's. she explained us how to check the expiry date on medicine also requested us to clean our home's first aid kit. She also spoke about obsolete equipment's if we are not using such since last 6 months then donate of sale it on OLX.

12 & 13 September 2021

Weekly off, Cleaning of home and society.

WORLD OCEANS DAY - SYMPOSIUM ON SUSTAINING LIFE BELOW WATER

09-JUNE-2021

SYMPOSIUM ON SUSTAINING LIFE BELOW WATER

Guest Speaker: Ms. Megan Dsouza, Youth Mentor, Samvada NGO, Mangalore

Megan is a true inspiration for the millennials today. Yearning to make the planet safe and sustainable, she has worked as Communications Head at Anti-Pollution Drive Foundation, an NGO based in Mangalore. She is presently working at Samvada as a Youth Mentor and believes she has found her calling.

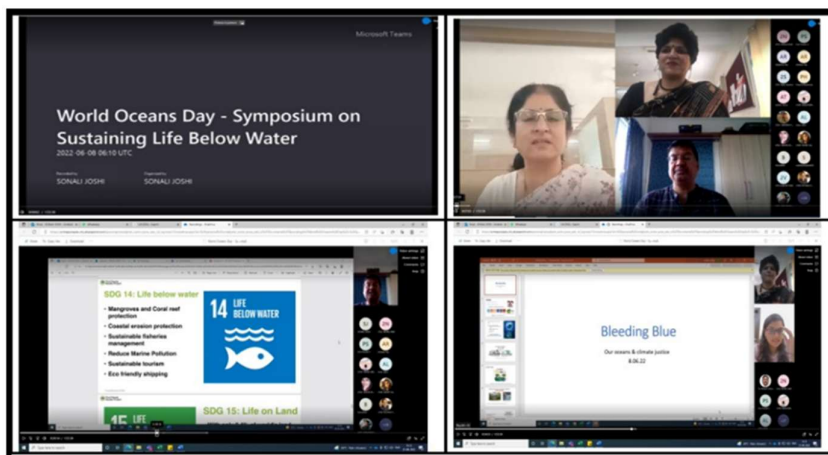

She began her session with quoting a narrative from Sir David Attenborough's documentary 'Blue Planet: Take a Deep Breath', "For years we thought the oceans were so vast and the inhabitants so infinitely numerous that nothing we could do could have an effect upon them. But now we know that was wrong," says Attenborough. "It is now clear our actions are having a significant impact on the world's oceans. [They] are under threat now as never before in human history. Many people believe the oceans have reached a crisis point."

Dr. Kashyap spoke extensively about the 14th UN SD Goal – Life below water. In India, about 35% of the population live within 100 km of the country's coastline measuring around 7500 km. Even though the sea level rise is a very slow phenomenon, the trends of sea level rise are estimated to be 1.3mm/year along the Indian coasts during the last 40 -50 years due to changes in the climate.

Dr. Kashyap put forth a few solutions to reduce the negative impact on the oceans and their life forms:

- Mangroves and Coral reef protection
- Coastal erosion protection
- Sustainable fisheries management
- Reduce Marine Pollution

Online session being attended by Students and Faculty on World Oceans day

The Director immediately issued Green Guidelines, promoting environmentally friendly behaviors at our Institute to uphold our commitment to making the Institute greener and more pleasant to ensure that these practices continue to be effective.

NOTICE

24.05.2021

Green Guidelines: Nurturing Sustainable Practices at Our Institute

1. Report any malfunctioning or inefficient lights to someone so that they can be fixed right away.
2. Ensure that electrical appliances are routinely inspected and maintained for efficiency
3. Make the most of the natural light. Switch off any lights that aren't in use during the day.
4. Notify the responsible repair team immediately if there are any issues with the rooftop solar PV plant.
5. Comply with the waste sorting guidelines; categorize waste at the source into hazardous items, recyclables, and nonrecyclables.
6. Place food waste in the appropriate bins at the biogas plant to convert it into biogas. Avoid polluting the environment with non-biodegradable waste.
7. Avoid placing waste from bathrooms in regular trash cans. You may have any issues with the shredder rectified right away if you find any.
8. Report any liquid waste management issues or leaks.
9. Encourage the collection of rainwater by abstaining from actions that can contaminate gathering places. Kindly notify us of any issues or harm to the rainwater treatment system.
10. Exercise caution when driving on major streets and in planted areas. Do not damage trees or scatter trash around. Inform someone if you notice any damage or safety concerns.
11. Ensure that using the ramp is always simple. Report any issues or barriers that make things challenging to access as soon as possible.
12. Participate actively in initiatives to conserve water. Observe the water usage guidelines and report any waste or leakage.

POSTER WITH SPEAKERS AND PARTICIPANTS ATTENDING THE VIRTUAL INTERNATIONAL E-SEMINAR ON MILLENNIALS' IP FOOTPRINTS

18th and 19th January 2021

Intellectual Property (IP) is a crucial aspect for economic development, according to a seminar by Craig Venter. The event, which included presentations by former WIPO Director S. Rama Rao and WIPO's Legal Affairs Head, Sandeep Bhalothia, discussed the role of IP in work life and differences in IP law applications in global economies. Panel discussions on 'Millennials and IP- Introspection' and 'Challenges for IP Reforms in a Shrinking World' also took place. The seminar concluded with a valedictory address by Dr. Smita Iyer, Assistant Professor at SVIMS, who discussed lessons learned from Australia and Canada in the context of IPs.

WORLD ENERGY CONSERVATION DAY 14-DEC 2020

Resource Person: Dr. Phunde, SPPU

Dr Phunde shed light on the concept of Energy Conservation, its need, importance and the Energy Conservation Act, 2001. Energy Conservation is an important Sustainable Development Goal and has a direct impact on the Environment and quality of Life. In that sense it has a bearing on all UN – SDGs. He explained how energy conservation is influenced by factors such as Global Direct Primary Energy Consumption, Human Development Index (HDI), Per Capita Primary Power Consumption, World Primary Energy Consumption and other matrices. He also spoke about career opportunities in the field of energy conservation in the Energy Service Companies as also under different programmes under EC Act, 2001.

REPORT ON VALENTINE'S DAY -"HUG A TREE" CAMPAIGN

Hug A Tree

14th feb 2020

"Love blossoms is a paradise; A tree is a companion in disguise"

And what is it that we do for them? What is it that they expect from us? Nothing at all! They give and continue to give, without any expectations. They give us their loving shade, warmth of a relationship and fresh air filled with romance. Students and faculty members of Sadhu Vaswani Institute of Management Studies decided to celebrate this Valentine's Day as "Eco Valentine" when everyone on campus would express their love and gratitude towards a tree. A campaign was organized titled "Hug a tree on the campus" where in all the students and the faculty members would choose a tree for themselves and hug the tree as a token of love and appreciation. It was a unique way of celebrating Valentine's Day with trees - they never ask for love and just keep on giving. It was a wonderful time celebrating this Valentine's Day in an innovative manner

Outcome of the event

The "Hug A Tree" campaign demonstrated that love knows no bounds, and expressing gratitude to our green companions is a celebration. This unique Eco Valentine's Day has left an indelible mark, reminding us all to cherish and care for the environment that selflessly gives us so much.

REPORT ON SUSTAINABLE MOBILITY DRIVE: REDUCING CARBON FOOTPRINTS FOR A GREENER TOMORROW

In alignment with its commitment to the United Nations Global Sustainability Goals, our institute embarked on a transformative journey towards creating a sustainable campus during the 2019–2020 academic year. One noteworthy initiative was the "Sustainable Mobility Drive," where the institute proudly practiced sustainable and ethical measures to reduce carbon footprints.

Sustainability Accounting Initiative: Carbon Footprint Mapping

The cornerstone of this event was the meticulous carbon footprint mapping, which focused on reducing carbon dioxide (CO₂) emissions through sustainable transportation choices. The institute celebrated the success of its sustainability research study, which examined the voluntary adoption of eco-friendly transportation options by members of our academic community.

Calculating CO₂ Emissions Saved: A Step Towards Change

The study primarily targeted 61 institute members, including 55 students and six staff members, who chose sustainable transportation modes such as walking, cycling, public transport, and car/bike pooling. Over the course of the academic year, these 61 individuals made a significant impact by collectively saving 2676.12 tons of CO₂ emissions that would have otherwise entered the ecosystem.

Empowering the Campus for a Sustainable Future

This inaugural sustainability accounting initiative marked a small yet meaningful step towards fostering sustainable practices within the institute. The event highlighted the environmental benefits of adopting eco-friendly commuting habits and served as a catalyst for broader discussions on sustainability and ethical practices.

Conclusion: Paving the Way for a Greener Tomorrow

The "Sustainable Mobility Drive" underscored the institute's dedication to positively impacting the environment. By embracing sustainable transportation choices, our academic community demonstrated that collective efforts, no matter how small, can contribute significantly to a greener and more sustainable future.

REPORT ON NEWS PAPER BAG MAKING SESSION

News paper bag making session on 23rd September 2019

With a view to minimizing the use of plastic bags, students of SVIMS, participated in an in house activity of making Newspaper bags from the old newspapers. Three students Ms. Poornima Ghodke, Ms.Shardhha Kanpile and Ms.Nishita Peshwani from the second year taught first-year students, how to make paper bags which can carry up to 1.5 kgs of weight and can be used to purchase daily grocery items. Last year a similar workshop was conducted by Ms.Nisha Gujrati who very meticulously taught the girls to make different sizes of paper bags, the objective of this activity was to encourage the students to make their own bags with used papers so that they can make a contribution towards saving Mother Earth

Outcome:

- Each participant will have the opportunity to take home their handmade newspaper bags.
- Gain insights into upcycling and sustainable living practices

VALENTINE'S DAY - "HUG A TREE" CAMPAIGN

10.02.2020

NOTICE

Love is in the air, and this Valentine's Day, we invite you to celebrate uniquely and eco-friendly with our "Hug a Tree" campaign. Let's spread love not only to one another but also to our environment.

Event Details:

- **Date:** February 14, 2020

Activities:

1. **Hug a Tree Session:** Join us in a symbolic gesture of love for nature. Let's come together to appreciate the beauty and importance of trees in our lives.
2. **Valentine's Day Celebration:** Enjoy a festive atmosphere with music, refreshments, and a positive vibe as we collectively celebrate love for each other and our planet.
3. **Awareness Session:** Learn about the significance of trees in maintaining ecological balance and combating climate change.

Why Hug a Tree?

- Trees are our silent companions, providing oxygen, shade, and a healthier environment.
- Express your gratitude towards nature and raise awareness about environmental conservation.

REPORT ON VALENTINE'S DAY -"HUG A TREE" CAMPAIGN

Hug A Tree

14th feb 2020

"Love blossoms is a paradise; A tree is a companion in disguise"

And what is it that we do for them? What is it that they expect from us? Nothing at all! They give and continue to give, without any expectations. They give us their loving shade, warmth of a relationship and fresh air filled with romance. Students and faculty members of Sadhu Vaswani Institute of Management Studies decided to celebrate this Valentine's Day as "Eco Valentine" when everyone on campus would express their love and gratitude towards a tree. A campaign was organized titled "Hug a tree on the campus" where in all the students and the faculty members would choose a tree for themselves and hug the tree as a token of love and appreciation. It was a unique way of celebrating Valentine's Day with trees - they never ask for love and just keep on giving. It was a wonderful time celebrating this Valentine's Day in an innovative manner

Create Outcome of the event

The "Hug A Tree" campaign demonstrated that love knows no bounds, and expressing gratitude to our green companions is a celebration. This unique Eco Valentine's Day has left an indelible mark, reminding us all to cherish and care for the environment that selflessly gives us so much.

SWACHHATA PAKHWADA
[1ST SEPT. '18 TO 15TH SEPT. '18]

[1st Sept. '18 to 15th Sept. '18]

Day 1: 3rd September 2018 (Clean Campus Day); Time: 2 to 3 pm

The students were briefed by Faculty member Ms. Vaishali Patil about the Objectives of “Swachhata Pakhwada” and its importance. The students put in their efforts to clean the institute building.

Day 2: 4th September 2018, Tuesday (Oath)

Time: 12 to 1 pm

Students took the “Swachhata pledge” which captures the dream of clean India. The Oath is to remain committed towards keeping the country neat and clean, by voluntarily devoting 100 hours per year voluntarily.

Day 3: 6th September '18(Quiz on Cleanliness & Hygiene)

Time: 2 to 3 pm

A quiz competition based on “Question Bank on Swachh Bharat Mission and Sanitation” was conducted between MBA-I and MBA-II students.

Day 4: 7th September 2018, Friday (Clean Surrounding Day)

Time: 2 to 4 pm.

Students were eager to participate in the Clean Surrounding Day wherein they were asked to check whether the campus and the internal road/access road to SVIMS is clean or not. Where ever they found garbage they cleaned it.

Day 5: 10th Sept. '18 (Prabhat Pheri)

Time: 9 am to 10 am

Students took out a Prabhat Pheri and visited nearby streets to spread the message of Swachha Bharat.

Day 6: 11th September 2018 (Street Play)

Time: 2 to 4 pm

Students prepared and performed a Street Play promoting cleanliness and hygiene & hygiene. The street play focused on Swachh Bharat Mission-Gramin and created awareness about hygiene and becoming responsible citizens.

Day 7: 12th September 2018 (Video on Swachh Bharat))

Time: 2 to 3 pm

An award winning motivational video on Swachha Bharat was shown to make students realize how a postman brings change in the society and thus how individuals can take initiative and bring a change.

Day 8: 14th September 2018 (Cleaning the Surroundings)

Time: 2 to 3 pm

Students cleansed the surrounding campus by collecting dried leaves and plastic.

WORKSHOP ON MAKING NEWSPAPER BAGS. 28-AUG-2018

With a view to prevent use of plastic and save the environment, we conducted a workshop [28th August 2018] on making bags from the News Papers. Mrs. Nisha Gujarathi, the trainer taught a group of 12 students how to make F-bags which can carry up to 1.5kgs of weight and can be used to purchase daily grocery items; D-Bags which are multipurpose bags which can carry up to 3kgs of weight; Box bags to carry and store shoes (up to 5kgs) and Shopping bags which can carry up to 8 kgs of weight. The bags are very affordable and look trendy too.

This is to certify that we have conducted Green Audit at Sadhu Vaswani Institute of Management Studies for Girls, 6, Koregaon Road, Pune 411 001, in the Academic year 2022-23.

The Institute has adopted following Green & Sustainable Practices:

- Usage of Energy Efficient LED Fittings
- Usage of Energy Efficient BEE STAR Rated equipment
- Installation of 40 kWp Roof Top Solar PV Plant.
- Segregation of Waste at source
- Bio Gas Plant, for conversion of Leftover Food Waste
- Provision of Sanitary Waste Incinerator, for disposal of Sanitary Waste
- Installation of Sewage Treatment Plant
- Implementation of Rain Water Management Project
- Good Internal Road
- Internal Tree Plantation
- Provision of Ramp for Divyangajan
- Creation of awareness about Water Conservation by Display of Posters

We appreciate the support of Management, involvement of faculty members and students in the process of Energy Conservation & making the campus Green.
