“Corporate Contributions Towards Sustainable National Development” - Session by Chhaya Sehgal

Date : 02-06-2022

Report

Mrs. Chhaya Sehgal started her session by sharing about the importance of the word commitment. She opined that if an individual cannot honour his/her own word, then no one else will honour their words. That is how important the word commitment should be to each one of us. The following are a few excerpts from her session:

She emphasized upon the role of woman and the familial structures that are an integral part of our society. The upbringing and value models are the secret of having a good future generation in any nation, in any society and in this world. Home and family are the nucleus of any social unit and therefore economic activity.

- If women of this world did not keep their family first, then we would have a society which will culturally and spiritually degenerate much faster than it is. It is individual accountability that drives corporate actions towards sustainability.
- She explained the concept of Triple Bottom Line. The triple bottom line is a business concept that mandates firms should commit to measuring their social and environmental impact—in addition to their financial performance—rather than solely focusing on generating profit, or the standard “bottom line.” It can be broken down into “three Ps”: profit, people, and the planet.
- We all are born out of the environment. If we start ruining it, we are ending our own existence. The barter system, leading to Silk Route to landlord system that humanity has seen, all this has led to “prosperity” defined by money. However, has also led to disruption in the balance of nature.
 - Through story of Amul, Chhaya Ma’am shared the success of White revolution in Gujarat brought about by Mr. Verghese Kurien that changed the lives of villages and especially women in these villages. Ma’am also shared the example of ITC that has brought about changes in the lives of farmers, giving more employment and education opportunities to the residents of the villages.
 - TedX talk by Mr. Rohit Deshpande was also referred to by Chhaya Ma’am. The video depicted the attack on Taj Hotel, Mumbai. It was a case study that was undertaken by Mr. Rohit Deshpande. It spoke about how the employees at all levels of Taj Hotel risked their lives to be with the guests at the Hotel, to protect them from any harm. These ethics and loyalty by the employees reflect on their contributions to the society. CSR, therefore, is not just a brand or a statement, it is a feeling that describes and defines the growth of a society at all levels.
 - Dr. Divya Lakhani, in her vote of thanks, shared her view that if you do good things, karma shall take care of everything else. The Corporates too need to be conscious of their actions and not only think about the balance sheet, the financial implications. Along with the profits it is the goodwill that takes the businesses on the path of growth.

World Environment Day

Date : 06-06-2022

Report

- Mr. Arpo Mukherjee started his session by explaining about ecosystem restoration. Ecosystem restoration is one of the most important ways of delivering nature-based solutions for food insecurity, climate change mitigation and adaptation, and biodiversity loss.
- It is not a quick or easy process; it will take deep changes to everything from the way we measure economic progress to how we grow food and what we eat. But the beauty of ecosystem restoration is that it can happen at any scale – and everyone has a role to play.
- The Speaker covered the main topics regarding the state of our lands, the state of our oceans, wealth vs material consumptions, the climate crisis the local challenges and the solutions that can be adopted to overcome these challenges.
- He conducted an exercise with the attendees wherein he asked them to write about the current and sustainable practices that each individual does in their lives with respect to certain areas such as transport, waste management, electricity, food, life on land.
- This exercise made the attendees self-reflect on their actions if any taken by them at their homes or workplaces. It struck hard to the point that only talking about these things does not make a difference. Hence, each contribution at all levels is important.
- He urged the attendees to take the environment pledge and put it on their LINKEDIN profiles for better reach and accentuating sustainable practices.

But now we know that was wrong," says Attenborough. "It is now clear our actions are having a significant impact on the world's oceans. [They] are under threat now as never before in human history. Many people believe the oceans have reached a crisis point."*
- Megan further pointed out that the sustainability of oceans is under severe threat due to marine pollution, ocean warming, fishery collapse to name a few.
- She projected data and numbers that denoted increase in CO2 concentrations, effects of the Great Pacific Garbage Patch, increase in the carbon footprints all due to the insane and uncontrolled global practices.
- She put forth introspective questions to the audience:
 - When the glaciers melt, who will be affected first?
 - When the sea-level rises, who will be affected most?
 - Who has to deal with the waste being thrown into the oceans?
 - Who will be affected by the dwindling population of fish?
- Through various articles and news clips from eminent papers, journals and documentaries, she brought out the ill effects that 'humanization' has had on life below water.
- She concluded her session by saying that climate justice is a social problem that affects the flora and fauna, the poor and the rich, in that order. It is about time that each of us takes corrective measures to sustain our future on this rare blue planet with scare and fast dwindling resources.

Dr. Divya Lakhani gave her HOD's address wherein she too presented her views on World Oceans Day. Ms. Sonali Joshi, on behalf of the Global Connect Cell team, thanked all the participants, especially the guests from DAMITS, Odisha, who graced the event with their virtual presence.

A Guest session on Ratio Analysis A Practical Approach for Business Decisions by Hemant Godse

Date : 13-06-2022

Report

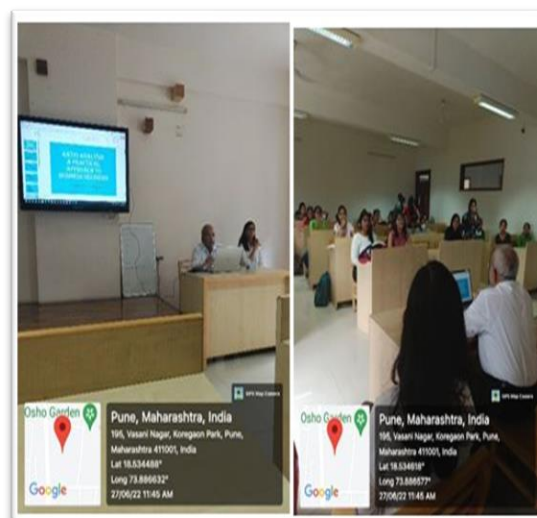

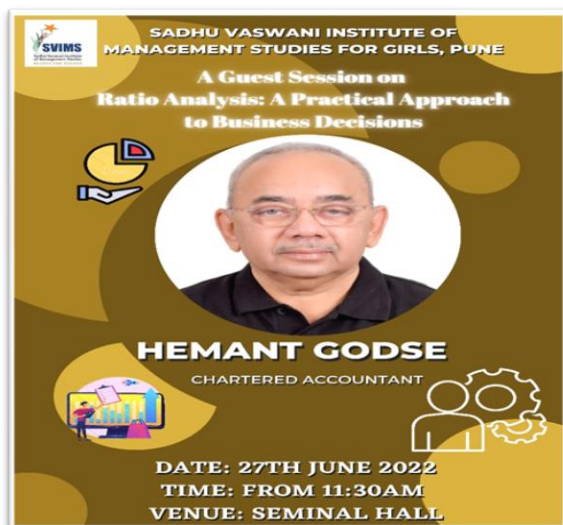

Speaker Name: CA Hemant Godse

CA Hemant Godse started his session by explaining the importance of ratio analysis in business organizations. Ratios Analysis is used by Tax Authorities, Bankers, Investors & Advisors in analyzing the past to take future decisions and it is also helpful to take investment, lending decisions, and other decisions within the enterprise.

He explained the prerequisites of ratio analysis: an analytical mind, common sense, knowledge of industry, Balance Sheet with all its links, notes, reports, laws, & allied documents. Further he explained different ratios: Liquidity, Activity, Profitability, Capital Structure / Leverage ratios.

Mr. Godse said that while doing Ratio analysis of any business organization one should take into consideration following factors:

- Find out correlations between the ratios. No ratio should be interpreted in isolation. Standards prescribed for different ratios are idealistic. Counter-effect of each ratio should be studied very carefully. Find out complimentary ratios & analyze all such ratios together.
- Ratio Analysis is not conclusive analysis. One requires other corroborative information to draw conclusions about financial health.
- Always remember basic financial management rules:
 1. Do not divert short term funds for long term uses.
 2. Strike perfect balance between profitability & liquidity.
 3. Rotate liquidity wheel maximum number of times to increase profitability

SEVA programme at Kalote

Date : 25-06-2022

Report

SEVA programme at Kalote, Thakurwadi, Tal Khopoli, Dist Raigad

A need analysis undertaken in this area made volunteers realise that non-availability of resources and continuous heavy rain had created obstacles for school going children; many would miss school simply because they had no footwear or raincoats to protect themselves from the adverse weather conditions. Also, financial constraints made it difficult for parents to buy stationery, notebooks etc. To encourage them in their quest for education, Sadhu Vaswani Mission, our Founding Body, provided them with Footwear, Raincoats, and school stationary.

As a part of community outreach, Dr Abhijeet Kaiwade, PO, NSS, and 21 student volunteers [out of which 16 are NSS volunteers], along with Sadhu Vaswani Mission volunteers, visited Kalote, Thakurwadi, Raigad. This is a tribal village (ref: 16th Rashtriya Jan Ganana February 2021 (Census 2021)).

Sadhu Vaswani Mission, a non-profit organisation, is a registered charitable institution headquartered in Pune, Maharashtra. The Mission, in pursuance of the values lived by the Great Masters — Gurudev Sadhu Vaswani and Rev. Dada J.P. Vaswani, is engaged in an array of activities which includes (but is not restricted to) — Education, Healthcare, Community Service, Soup Kitchens, Dada Bhandara (Langars), Jeev Daya (Service of Birds and Animals), Publications and Spiritual Upliftment (Daily Satsangs).

As a welcome tradition Mr Lal Adwani, Mr Patil, Principal ZP School, Kalote and delegates from SVM lit a lamp. Kalote Zila Parishad School children welcomed us with welcome song and Ganesh Vandana. SVIMS Student volunteers under the community engagement conducted the following activities:

1. Ms Kiran Purohit narrated anecdotes from the life of Sadhu Vaswani with the objective of imparting some moral and human values to the young students.
2. Ms Isha, Ms Salomi, Ms, Gunjan, and Ms Rutuja put up a small skit to encourage students to show compassion towards animals and go meatless, thus saving Planet Earth and bringing about sustainability
3. Ms Mitali, Ms Isha, Ms Salomi, Ms Nandini, Ms Megha put up an enactment on the theme: Save Girl Child.
4. Student volunteers interacted with these small kids and distributed Joy kits (Savoury Packet, Toffies, Rajgira Chikki, Chocolate, Cream biscuits) sponsored by Sadhu Vaswani Mission.
5. Student volunteers helped SVM members for distributing School kits to school children (

- a. Anganwadi 42 students – Slate, Duster, chock set, Pencil box and notebook,
- b. Pre Primary School 38 students – Set of notebooks, Pencil box, scale, and
- c. Primary 57 Students – Set of Notebooks, Geometry box, and Pencil box)
- d. Joy Kit, Footwear & Raincoat for all them.

137 tribal kids from nearby area of Kalote village participated in this activity. They were very happy after this activity. Children thanked SVM & SVIMS students volunteers.

Our own students were found teary eyed when they faced realities of children being deprived of education owing to absence of essentials. Some of them made resolves to help the children and destitute as soon as they reach a meaningful economic standard.

Menstrual hygiene is a problem for adolescent girls in low and middle income groups, particularly when attending school. Poor sanitation and hygiene facilities in schools, inadequate puberty education and lack of hygienic absorbents / sanitary items cause girls to experience menstruation as shameful and uncomfortable. Over and above this, the girls feel fear and humiliation from leaking of blood and body odour, which leads menstruating girls to skip the school.

The aim of holding this workshop was to address these issues and also demonstrate to the girls (between Class V to X) making of hygienic and cost effective cloth pads to help them have comfortable periods.

EXECUTIVE SUMMARY

SVIMS arranged for a workshop on cloth pad making at two schools in Undri and Pisoli area. The names of the schools are as follows-

1. Bloomfield House of Knowledge School,
Raj Vihar Society, Sr. No - 50/2/1, Jagadamba Bhawan Road, opposite Sunshine Hills, Undri, Pune, Maharashtra 411060
2. Mahatma Jyotirao Phule High School,
Yewalewadi, Shree Siddhivinayak Meera, Pisoli, Pune, Maharashtra 411048

The workshop was planned with a view to create awareness about adolescent menstrual hygiene. Prof Sonali Joshi spoke to the young girls about periods,

menstrual hygiene and the ways to keep themselves healthy and active during 5 days. As the girls were from standard 5th to 10th standard, a few of them were aware about periods and some of them didn't know. What was more surprising was that this was not even discussed at their homes; their mothers hadn't yet informed or shared with them about this natural phenomenon. The SVIMS faculty and the students shared their experiences to reiterate-

- Periods are nothing to be scared of
- Periods are nothing to be ashamed of.

Ms. Pratiksha Punekar, along with two trained ladies Mrs. Priyanka Nanaware and Mrs Ratna Bala Bhairat (from Kamakhya NGO), started with the workshop of making cloth pads.

The material required for the workshop was shared with the schools two days in advance so that the girls were ready for the workshop. The material required was Paper and pen, Scissor, Old towel, Old Cotton cloth, Needle and thread and Buttons.

SVIMS girls, alongwith Didis, helped the young students to make the cloth pads. The girls were all full of smiles by the end of the workshop.

As both the schools were Co-Ed, Ms. Asawari Nawale conducted Arts session for the boys while the workshop for girls was in progress.

Once the pad making workshop was over, all the students were then brought together for a dance session by Ms. Namrata Nagpal. The SVIMS Faculty and students were felicitated at both the schools and were thanked by the authorities for conducting the workshop. They also extended their invitation to the team for conducting such workshops in future too.

The day had been a fruitful one, giving a sense of achievement and satisfaction. It also made us realize that there are still places and pockets where talking about menstrual hygiene, periods, is still cringed upon. When asked "how many girls have their periods", there were many who lowered their heads while raising their hands. They were asked to hold their heads high as this is a blessing of Lord Almighty given to women.

As a wife, a Hindu female gets an equal share as her children in her husband's property if he dies. They are Class I heirs. A mother also has a right to the property of her son.

Dada J.P. Vaswani 104th Birth Celebration-SVIMS Play - Jashan Tara

Date : 31-07-2022

“Jashan Tara”

Short Play

On occasion of Dada J P Vaswani’s 104th Birthday Celebration

30th July 2022 & August 2022

Students and Faculty of SVIMS presented a play depicting the Spiritual Brilliance of our Rev. Founder, Dada J P Vaswani to celebrate his 104th Birth Anniversary.

The play commenced with Mira, a student, observing the stars using the telescope in the observatory. When she observes a certain formation in the sky, she is excited. When questioned by her teacher, she requested him also to see it. After observation, the teacher remarked that this is the ‘Constellation taking the form of Dada J P Vaswani’. Mira’s curiosity is raised further, and she asked her teacher to enlighten her about Dada Vaswani. The teacher then went on to narrate few incidents from his life.

Dada Vaswani, as a child, was in the music class – wherein he asked his teacher – why is it that the sound ‘Sa’ appears twice in the Sargam. The reply – ‘Sa’ is sung twice – one at lower level and another at upper level – raised his inquisitiveness. He metamorphized this philosophy to life – one can live his/her life at lower level – equating it with being engrossed in worldly desires and duties, whereas one who lives his/her life at upper level is always devoted to God and serves the humanity. Child Jashan’s determination was there for all to see when he decided to lead his life at the upper level.

Once Dada was going to the temple with the Satsangis. He heard the cry for help from a needy person. One of the Satsangis approached him and found that he was suffering from leprosy. He dissuaded Dada from reaching out to the needy man. But Dada being Dada, took him under his wing and provided support to come out of his misery.

Similar other incidents brought forth his love and compassion for all those who got an opportunity to interact with him.

Mira, inspired by the life of Dada J P Vaswani, decided to name the constellation after him – **“Jashan Tara”**

The play conceptualized by our Director Dr. B H Nanwani, was appreciated by one and all. The resounding success echoed into the halls of Sadhu Vaswani Mission and the play was repeated on 7th August 2022 on the occasion of “Chhathi – Naming Ceremony of Dada Vaswani”

CONCEPT OF THE PROGRAM

Forgiveness is the main teaching of Rev. Dada J.P. Vaswani whose birthday itself is observed as Forgiveness Day on August 2. Known as The Moment of Calm, it is a Forgiveness Moment, where people all over the world are urged to observe August 2 as a day to forgive and seek forgiveness. "The Moment of Calm" is a global initiative for World Peace that aims to bring calm in the hearts of people through the power of forgiveness. First observed in 2012, it urges everyone to observe silence for two minutes at 2 p.m. to clear their heart of misgivings and breathe out an aspiration of peace and harmony. Rev. Dada J.P. Vaswani believes, "Love has many forms. Perhaps, the noblest amongst them is – forgiveness. The one who forgives becomes the recipient of true peace and happiness."

EXECUTIVE SUMMARY

The Sanctuary began with College Song, Invocation and Saraswati Mantra. Ms. Sonali Joshi welcomed and shared with the attendees the purpose of the Special Sanctuary.

Mrs. Vaishali Patil presented her views on Forgiveness. She shared her experience about the power of forgiveness. She urged the students to introspect and they shall then find the power in themselves to rise above the ego, dislike, hatred, hurt and pain and forgive the other person.

Ms. Adolphina sang a beautiful hymn on forgiveness and took everyone into the world of belief and spirituality.

Farzin Khan recited a beautiful Arabic couplet in praise of Allah and the power of forgiveness.

Ms. Kiran Rajpurohit danced on a beautiful song titled 'Worthy is the lamb' and had everyone enthralled with her performance.

Shriya Tupe shared her thoughts on Forgiveness and the importance of the event. Forgiving a person means letting go of all the bitterness we hold for someone and fill our hearts with love and compassion. A famous proverb quotes, 'It is human to err, it is divine to forgive'. Likewise, human nature is not all good and, at the same time, all bad. We all respond to a situation in our ways, and that makes us good or bad in people's eyes. We all have different life experiences, some favorable and other not-so-favorable. But the most magnificent kind-hearted gesture we can owe to someone is to forgive them. As beloved Dada said, "Keep on forgiving until it hurts, at least forgive as many times as you would wish to be forgiven by God."

Dr. Divya Lakhani, in her HOD's address, presented her views on the importance of the day, the need to be more empathetic and understanding and being dedicated to goodness in yourself and others.

The Special Sanctuary session ended with a One minute of prayerful silence where Ms. Sonali Joshi requested everyone to send their feelings and prayers to that one person whom they would like to forgive at this moment. She thanked all the participants for making the event a success.

The event was well captured with photos and video.

The poster is for an event titled "International Forgiveness Day" held at the Sadhu Vaswani Institute of Management Studies for Girls, Pune. It commemorates the 104th birth anniversary of Rev. Dada J.P. Vaswani. The event is scheduled for August 2nd, 2022, from 10:45 am to 11:30 am at the Sanctuary Hall. The poster features a photograph of Rev. Dada J.P. EXECUTIVE SUMMARY

Shantai Foundation works towards providing better future to the young children of the vasti. These are the children who in their tender age have seen many hardships and need tender loving and care. Statistics show that if young children are not properly guided and nurtured in their formative years, then the probability of them turning into criminals becomes high. Shantai Foundation endeavours to contribute to development of children into responsible citizens of the country.

5 Faculty members alongwith the Sadhu Vaswani Mission coordinators went to Shantai Foundation to celebrate Diwali with the children of the nearby dwellings.

These children were excited and happy to meet all of us. They were in their festive best – clothes and spirits.

All the children were divided into two groups of girls and boys. The faculty members then teamed up as per the groups and started distributing the clothes to the children. The age of the children ranged from 2 to 18 years.

After this, joy packets consisting of juice, sweets and savoury items were distributed to the children. Ration kits were also distributed.

During the fun activity time, a few of the students sang songs and recited poems. Everyone then settled down to have a sumptuous breakfast and tea. It was a morning of gratitude, reverence and thanking the Almighty for His benevolence.

| Description | Menstruation: Voicing the Pain behind the Taboos |
| Day & Date | Wednesday, 18th January 2023 |
| No. of Participants | Faculty : 07 Students : 96 |

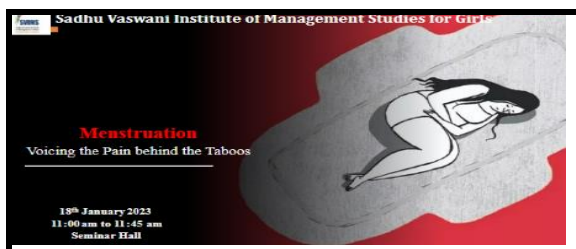

OBJECTIVES

- To address the myths related to menstruation.
- To provide a platform to the girls to address the taboos related to menstruation.
- To encourage the students to be the ambassadors for creating the awareness in the younger girls

Report

A skit was performed by the students to bring about the theme of The Right Conduct towards menstruation. The skit was about a young girl who gets her periods for the first time, about her mother and the grandmother. The skit beautifully depicted the innocence of the young girl child, the situation of the mother caught between her 'grown' up daughter and the diktats of the grandmother who has her set of beliefs regarding periods. The young girl, more than the physical pain, is going through the emotional and mental pain of being 'ostracized' by the family for *those five days* for no fault of hers; so much so that her mother too cannot help but follow the rules of the house.

- The skit brought about many an emotion in the audience wherein the girls shared their experiences. Even today, those who hail from villages, face this treatment. They opined that it is embarrassing as everyone in the neighborhood get to know 'woh baahar hai'. There is a dire need for menstruation to be treated as a normal phenomenon and also understand that even though women need rest during their periods, they are not invalidated or incapacitated to work.
- Another student also addressed the concern of girls as young as the age of 8 or 9 getting their periods due to changing lifestyles. As such, there is now more need for early education for the girls as well as the boys regarding menstruation. There must be empathy and support rather than being treated as a victim or someone impure.
- The skit was appreciated by all.

Cyber Crime Awareness-Celebration of Cyber Jagruti Divas

Date: 01-02-2023

Report

Cybersecurity Awareness Day (also known as Cyber Jagrukta Diwas) is an event that is organized to raise awareness about the importance of cybersecurity and educate people about various cyber threats such as phishing links. By presenting skits, students can develop skills to spread awareness and educate their peers and community about the dangers of phishing links and how to stay safe online.

The significance of Cyber Jagrukta Diwas was discussed before the skit was presented.

The skit was about a phishing link sent by hackers for investment.

A link for an investment was sent to victims that would return twice its value after seven days. It was decided by the victims that they would invest more in order to increase their return. After that, the hacker disabled the link. Victims were waiting for seven days to pass. After 7 days, victims tried to access the same link, but it was no longer active. In response, one victim suggested reporting the scam. The cyber security officer was annoyed and expressed regret that despite their advising people not to click on unknown links, people go ahead and do so and cause losses to themselves. The Officer promised to help and investigate the issue. The next day however the officer gave the victims the bad news that the link had been closed for a long time, hence the hacker could not be traced/ identified.

The skit and the scenario described is an effective way of raising awareness about the dangers of phishing scams and the importance of being cautious when it comes to online security. By showing the consequences of falling for a phishing link and investing money, the skit highlighted the need for due diligence and caution when making online transactions. The role of the cyber security officer in the skit demonstrates the importance of seeking help and reporting incidents to professionals. The fact that the link was closed for a long time and the hacker could not be traced serves as a reminder that once a phishing link is closed, it becomes difficult to retrieve lost funds, emphasizing the need for vigilance in protecting personal and sensitive information.
