Academic Year 2020 -2021

[Based on Feedback of Semester I and III]

The analysis of feedback was undertaken by IQAC and presented as report for enabling suitable Action.

The analysis was also presented to the Governing Council.

1. The Director explained to the Board members that visiting faculty had primarily not measured up in student evaluations. The low ratings were also because the visiting faculty could not develop enough rapport and understanding on the virtual platforms.
2. The Director explained to the council that one of the regular faculties was having severe medical issues and had slipped on ratings on certain parameters.

Based on Suggestions and Decisions by Management following Actions were taken

- a. Services of the Visiting Faculty [with low ratings] were stopped. The Management advised that due care should be taken to appoint visiting faculty who have a good track record in academics and are well-versed with techniques of student engagement on virtual platforms.
- b. The permanent faculty with low ratings was advised to proceed on medical leave, recover completely and then resume duties
- c. Student employability was sought to be enhanced through the introduction of suitable career-oriented certificate courses
- d. Sanctuary – special sessions conducted by the Institute would focus more deeply on sensitizing students to ethical issues and building resilience given the acute negative impact of COVID on physical and mental wellness.
