Outcomes:

1. The certificate course, "Spirituality for Leadership, Employee Wellbeing, and Organizational Excellence," was introduced in alignment with NEP requirements of laying thrust on value education and promotion of Indian Ideals. The course helped the students to gain proficiency to seamlessly integrate spiritual insights into various facets of management and leadership. This program serves as a catalyst for the comprehensive growth of individuals, enhancing their capacity to adeptly apply spiritual principles within the realm of leadership. The course helped students to develop a holistic understanding that shall significantly contribute to their leadership acumen and fosters a profound connection between spiritual principles and organizational excellence.

2. "Introduction to Fintech in Banking," has helped students to improve their domain knowledge and helped them stay abreast of the latest use of technology in Finance. The program has effectively enriched their understanding of the intricate landscape of fintech within the banking sector, providing them with valuable insights into the latest innovations, trends, and technological advancements shaping the financial industry.

3. After completion of certificate course Digital Equalizer for Girls (DEFG) , and Employability Skill Programme , students employability skills increased and they are able to face placement interviews confidently

4. After completion of certificate course Project Based Training on Data Analytics (ERP,BI, and AI) students not only acquired theoretical insights but also gained the ability to apply analytical techniques in real-world scenarios. The program places a particular emphasis on AI, enabling students to delve into the intricacies of this cutting-edge technology

5. By enrolling in Massive Open Online Courses (MOOCs) and other online programs, students were granted access to advanced content and innovative pedagogical approaches, delivered by esteemed professors from renowned institutions. This exposure played a pivotal role in enhancing their domain knowledge across various specializations, providing a rich and diverse educational experience.

6. The active participation of students in MOOCs and other courses not only broadened their knowledge base but also nurtured the development of a continuous learning mindset. Engaging with a variety of courses and learning materials online instilled in them a commitment to ongoing education and skill development. This approach to learning fosters adaptability and a proactive approach to staying abreast of evolving trends and advancements in their respective fields.

7. While Placements are still going on, 40 % Students have already been placed two students have become entrepreneurs
