CRM in Hospitality Industry

Mr. Narendra Mansukhani, Executive Leader who last held the position as the Global Head-Customer Services at VFX Global, took up this topic from scratch. Before he shared the CRM strategies that he implemented and the systems he set up, he first took the students through the basic concepts of CRM. Slowly building the momentum, he went on to tell everyone about how the departments under CRM were fragmented and how they have now been integrated. He emphasized the importance of technology management in CRM equally. People Management is now enhanced by Technology Management in Hospitality. Before the QnA session, he gave us a summary of his 26 years stint at Oberoi Hotel, Jet Airways and VFX Global and a few below mentioned remarkable initiatives he had taken at these organizations were:

1. Training the employees at VFX Global for a transition in their mindset of considering a lead as a customer rather than a client.
2. Implementation of organization-wide CRM automation.

The image displays a collage of screenshots from a Zoom meeting. The top row shows two slides from a presentation. The left slide is titled "What is Customer Relationship?" and defines it as "the way in which two or more people or things are connected". It also includes a quote: "Relationship is a series of repeated interactions between dyadic parties over a time." The right slide is titled "Structure" and lists three main points: 1. Introduction - CRM (Concepts, What, Why, Objectives), 2. Why Business needs CRM (Customer / Supplier relationship, Customer Lifecycle / Orientation), and 3. Customer Strategies (My experiences, Implement CRM, Managing database, Future Trends). The bottom row shows a slide titled "Why a Business Wants Relationship with its Customers?" featuring a quote by Damon Richards: "Your customer doesn't care how much you know until they know how much you care." To the right of this slide is a grid of six video thumbnails showing participants in the meeting, with names like Naren, Falak Baig, Kalpana Singh, Nikita Wankhede, Pradnya B, and Shradha Shinde visible.

Enhancing HR Function in the Digitally Driven Workspace

The poster features a dark blue background with a network of glowing orange nodes and lines, symbolizing a digital workspace. A woman in a blue suit is holding a tablet, and another woman is visible in the background. The text is arranged as follows:

- Top left: SVIMS logo and text: **SADHU VASWANI INSTITUTE OF MANAGEMENT STUDIES FOR GIRLS, PUNE**
- Center left: **"ENHANCING THE HR FUNCTIONS IN A DIGITALLY DRIVEN WORK-SCAPE"**
- Bottom left: **Guest Speaker: Mrs. Pragati Chopda Shah**, **Head – HR & Admin**, **K Engg. Products, Pune**
- Bottom right: **16th May 2022**, **11:30 to 12:30**, **MS Teams**

Date: 16-May-2022, 11:30 AM - 12:30 PM, MS Teams, Participants: 30

Pragati began the session by sharing her recent experience at a Taj property wherein she conversed with the HR manager about the standards of service that Taj is known for and the engagement of the employees. The manager shared about the growth cycle of the employee right from the time he is inducted into the organization and the handholding the employee gets for his career development.

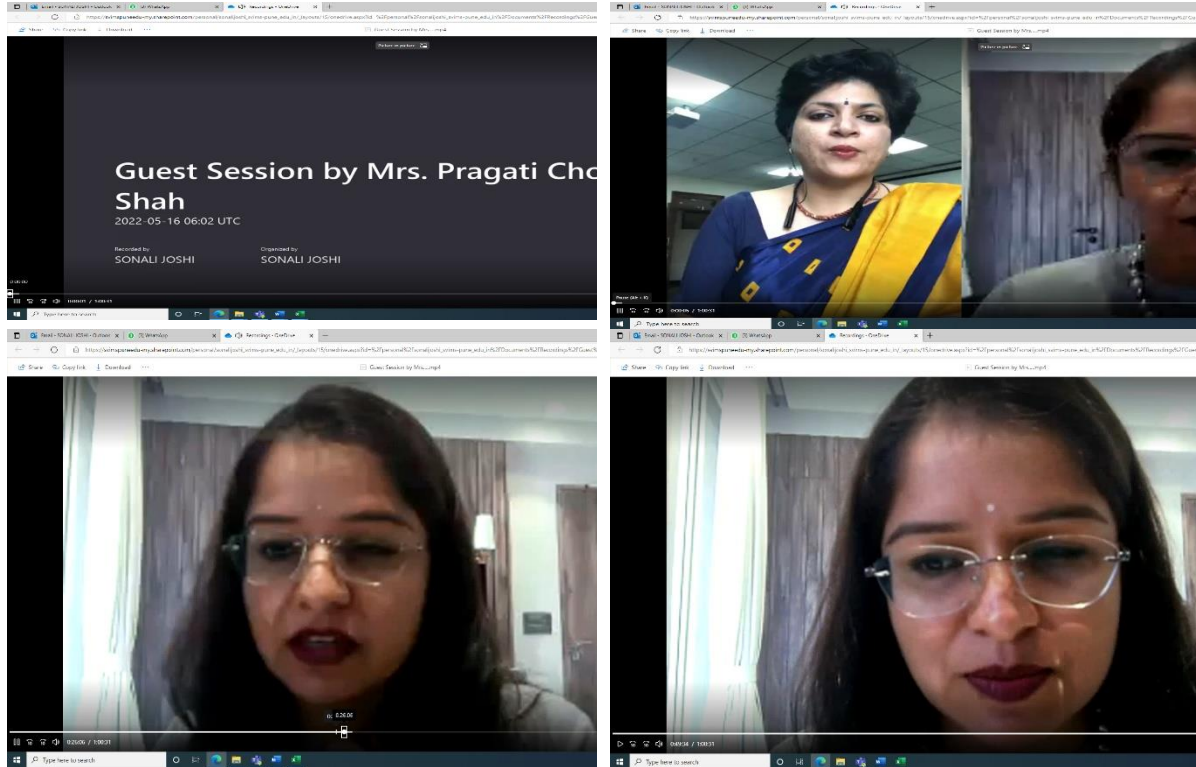

She emphasized on the need for right recruitment practices followed by well defined training programs.

With digitalization, even the levels of leadership have been restructured. Most of the organizations today hire coaches to help them understand their capabilities, enhance them, fill in the gaps to have a better functioning at all levels.

She spoke about upskilling. She encouraged the girls to be open to learning, to keep themselves updated and enhance their existing knowledge and skills through various courses, reading and keeping themselves abreast with the changing business scenarios. It is required for them to understand their role as an HR in the digitally driven world and to perform to meet these complex requirements.

Goals for self and the plans to achieve them are very important to keep oneself engaged and motivated. A good career planning has positive impact on individual as well as the organization. She shared her journey from being an MBA graduate to her present job profile and her learning through the years.

Students interacted with the Guest speaker and asked her questions which she graciously answered. The questions varied from work life balance to digital workspaces and career choices in the HR today.

HR Shared Services and the Other Emerging Trends in HR

Date: 30-May-2022, Time:11:30 AM, Online, Participants: 32

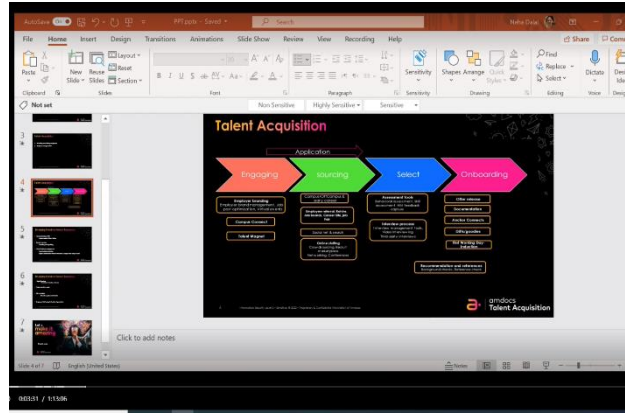

HR Shared Services is a centralized point of HR administrative and operational duties that are characterized by employee self-service and automation through leveraging technology, and multi-tiered levels of service and service responses. This allows organizations to provide standard HR services in the most efficient way. This also is a catalyst for many new trends that are emerging in the world of HR today, that have a direct impact on the businesses globally. SVIMS had arranged for the session with Ms. Neha Dalal, Specialist – Talent Acquisition, AMDOCS to share her insights about the new HR world and its demands.

Neha began the session by sharing about her job profile at AMDOCS and the learning experience it has been for her ever since she joined the organization.

She covered the concepts of Human Resource Employee Services, detailing about the components such as employee benefits, compensation, relations, HR compliance, HRIS and payroll and training and development. She quoted examples from her organization for the concepts she shared.

Talent Acquisition and training is given much importance at AMDOCS as these are the building blocks for any HR department to function well. She spoke about the current trends in HR that are being experienced by the organizations such as remote learning, remote working, mental health support, employee engagement etc. She encouraged the students to keep upskilling themselves as that must not be a hindrance in their trying to achieve their dreams.

She also shared that there is demand for good candidates in the job market. The need from the candidates is that they should be ready to learn, even if they might not have the certificates for courses trending in the market. It is important that they understand and adapt to the workings of the organization. That opens a lot of growth opportunities for the candidates.

4. Digital today is hygiene.
5. Fail fast and learn fast.
6. Be a learner for life.

Marketing of New Age Services

Date: 02-Feb-2022, 12:30 PM – 1:30 PM, MS Teams, Participants:13

This session was conducted in an interview format. A series of questions ranging right from services like that of Hike messaging app, Tinder, services of a doula/mid-wife/dog walker, pet grooming services were asked to Mr. Manoj Nair, Global Head of Marketing at Infosys. He presented logical and fresh perspectives on these services. One of the examples are his views on that of services of doula/mid-wife. He said that in his perspective, these services will have better scope and demand only when a word is put up/backed up by the maternity hospital.

In regards with services of a Dog walker/grooming of pets, his views were that they are still in their growth phase even in well-established cities like that of Bangalore or Pune.

His views on new-age services like that of a dating app or apps backed by virtual and augmented reality gave us new perspectives to consider about these services.

Interview Skills in Digital world

Date: 28th May 2022, Guest: Lt. Col. Alok Kumar Das, Participants: 48 (46 Students, 1 Guest and 1 Faculty)

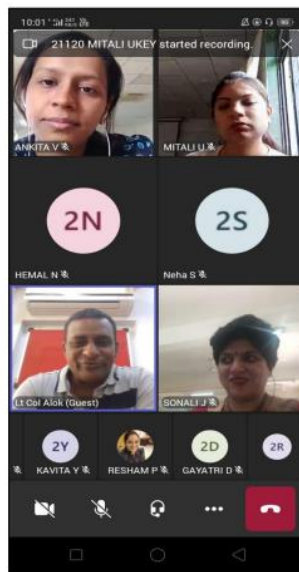

Lt. Col. Alok Kumar Das began the session by defining the two types of competencies i.e. Functional Competency and Behavioural Competency. According to him these two types of competency are very much required for any interview. He emphasized on the effective communication, body language and eye contact which is also important in any interview. According to him, one person should know about the vision, mission, goals and objectives of the organization before he or she went for the interview.

He spoke about failure as well. He motivated the girls not to think or worry about failure. The most important thing is that how one managed himself/herself after facing failure. The person should not think too much about the result. He/she should go with the flow. “Learn from the failure and go for the next interview”.

Further he spoke about Manipulative and Open Minded. No one should be open-minded and manipulative. Rather being open minded, close minded is a better option. Open minded means having a difference of opinion which is not good for any interview. He emphasized more on satisfaction as well. If one person is not satisfied of what he/she is doing so he/she is not on the right track. One should enjoy every part of the journey which is very important. It will

definitely make one a better candidate. “Become Comfortable with Uncomfortability” is a quote which he stated in the session.

According to him one should not be uncomfortable one should be polite, be confident. Students interacted with the Guest Speaker and asked him questions which he graciously answered. The main question asked by students is how to remove fear. So he answered that the best way to remove fear is Practice

He gave advice to the students to get the interviewer's attention in the first 10 seconds only. Candidates should keep it simple yet significant. Mr. Dipen Sharma also spoke about the candidate's interest. Candidates should go for the job interview in which they have interest. Interest is also important in any job. Interest as well as satisfaction is also important. Students

interacted with the guest speaker and asked him questions he graciously answered. The questions varied from how to handled nervousness to how it is important to being real.

Building Strong Resume

The guest session took off in the direction of discussion on what is a resume?

Ms. Aditi informed us that she curates and builds linkedin profiles for people and helps them in maintaining a strong profile. We discussed why one needs to understand resume building - It helps one to identify and highlight their achievements. It helps to summarize our goals. Resumes help in building a lasting impression. The time taken by recruiters to see a person's resume roughly takes about 7 seconds. Creating an impression is a must and it can be done in 3 ways - Design, Content and Objective. Lastly, we saw the rights and wrongs of resume writing.

Resume Curation

Date: 01st June 2022, Time:3:00 PM – 4:00 PM, MS Teams, Participants: 28 (26 Students, 1 Guest and 1 Faculty)

The speaker discussed Resume writing in detail. She mentioned that content that should be avoided contains a person's personal information. It isn't necessary to include such details in the resume. She added that a lot of the thought process should be diverted towards the appearance i.e. a resume. It should be 2 page, layout and formatting done correctly will immediately catch the recruiter's eye, fonts and colors should be perfect for the resume. Our goal in the resume should match the job that we are looking for. Lastly, she explained the rights and wrongs of resume writing.

Crack The Interview, Get the Job

Date: 31-May-2022; Time: 4:00 – 5:00 PM, MS Teams, Participants: 24

The speaker explained different types of job interviews. The best one was the Lunch Interview. This one was a new type of interview as the others were all common. The best line said was that First Impression is the Lasting Impression. As we usually say First Impression Is The Last Impression. She also shared the tips while going for the interview and how to create a good impression on the recruiter or the interviewer. She explained do not ask for job security when you go for an interview. Because asking for a job security will not put a good impression on the recruiter. Also she shared that at an interview you should always ask questions where it will help the recruiter to know you better and that you are interested in the job.

Skills on Display

Date: 2nd June 2022, Time: 3:00 PM– 4:00 PM, MS Teams, Participants: 24 (22 Students, 1 Guest and 1 Faculty)

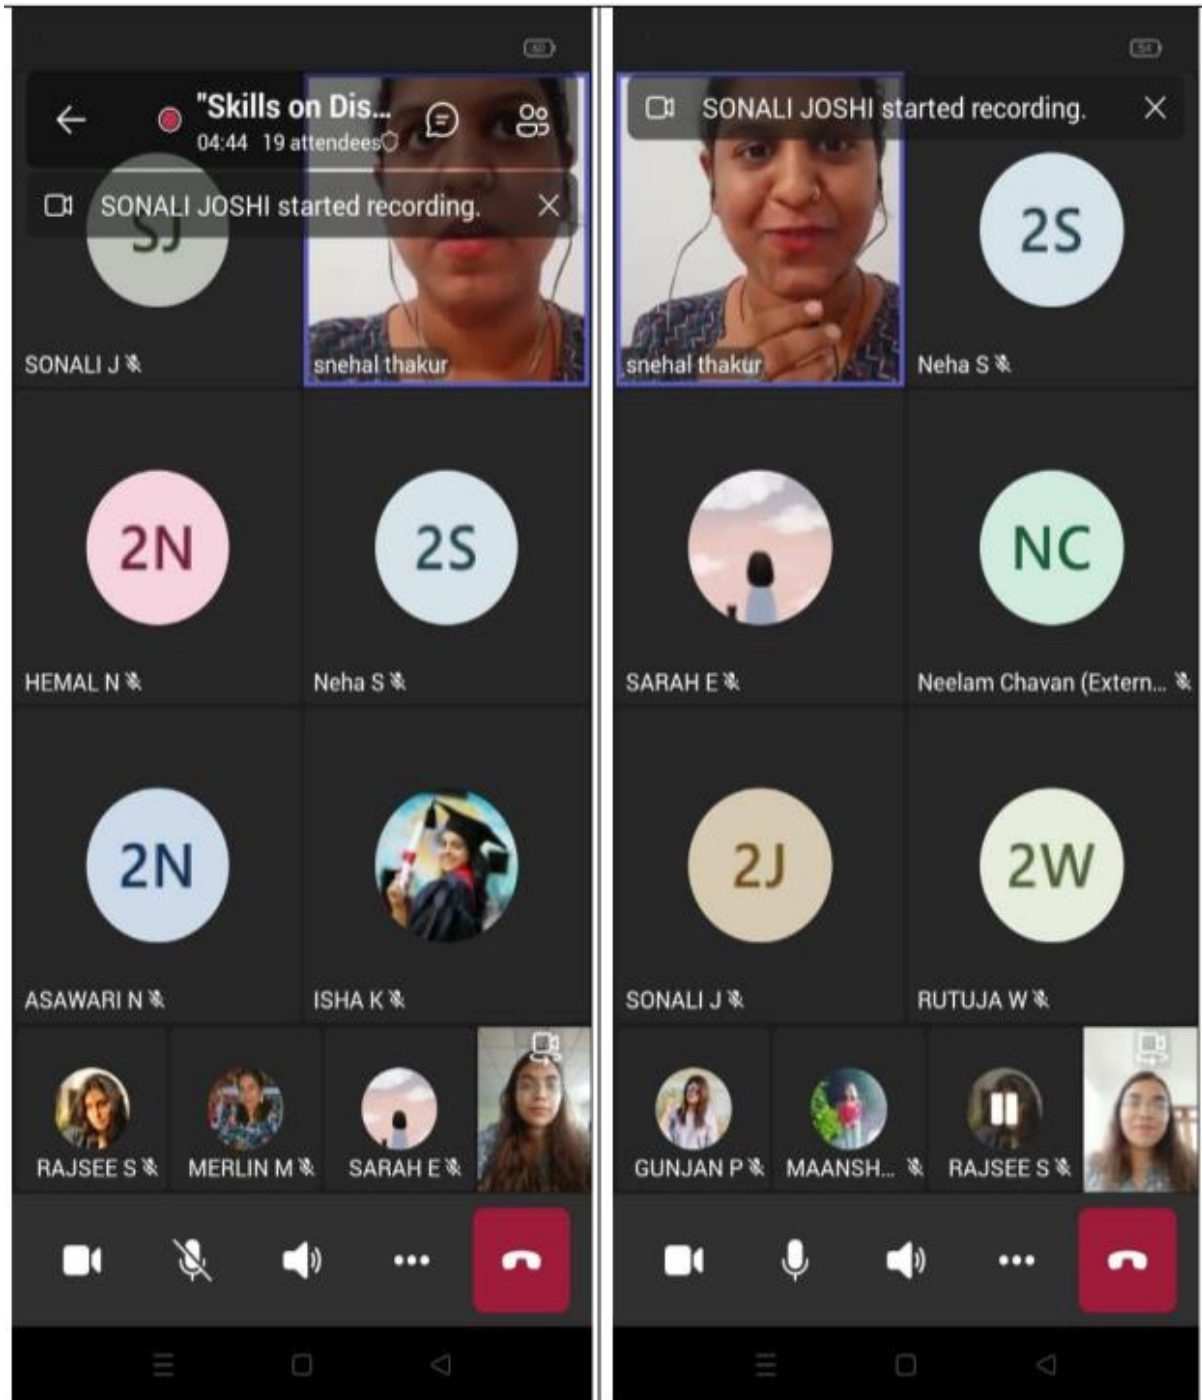

Snehal began with her topic about skill on display/ video c.v. a video resume is great chance to stand out to find out for job.

If you decide to give it a go there are a number of things to consider before you start filming. First off, don't be daunted by the quality of other video CVs you find online. The aim isn't to be the next Steven Spielberg, but rather to give a glimpse into who you are and how you can help organisations grow.

To begin with, write down what you'd like to say. Don't attempt to film the video without a script - this can lead to you forgetting important points or waffling to fill the time. Learning your script beforehand also prevents you from having to read from an autocue or notes.

Plan the location of your video to ensure that you have a quiet, well-lit space to film in. You'll also need to consider the backdrop of your recording. It should be clear and free from clutter. If you're using a specific set or props make sure that everything that appears in your video is appropriate and professional.

Appearance also matters. Plan your outfit in advance, making sure to dress as you would for an interview. This could mean a suit and tie or business casual - take your cue from the type of organisation that you're applying to. 'When I prepare a video, I always imagine a film in my head of how I would like the video to look,' explains Mounia who now works as a marketing manager and content creator. 'The intro needs to be catchy so I always think of how I can make something original. Then I start writing a short script. When I have the text I start to draw a storyboard of the different scenes and angles I plan to shoot. After all the planning I start recording. I recorded my own video CV with a tripod and my camera. I added the voice over and some light music in the background during the editing phase.'

Mock Interviews

Ms. Aakansha Shrotriya gave a brief description on Mock interview. A mock interview, also called a practice interview, is a kind of simulation of an actual job interview. The mock interview provides practice for you as a job seeker before having a real-world job interview. Also, it creates an opportunity for you to get feedback about their interviewing skills. As future IT job seeker, you will put a huge effort into searching for a job, building out a portfolio, and preparing your resume. But it is important to make sure that you spend the necessary time prepping their interview skills. Therefore, making sure that you take the time to thoroughly practice the interview process through a series of mock interviews is a “must”. Also, the benefits of the mock interview were discussed during the session.

Date: 3-Jun-2022, Time: 4 PM – 5 PM, MS Teams, Participants: 19, Guest: Mr Ashish Gawas

The guest session took off in the direction of what is group discussion. And how to ace a group discussion. Mr Ashish Gawas informed us that how he gets into a group discussion, how to implement it and the ways. People in the group discussion are connected with one basic idea. Based on that idea, everyone in the group represents his/her perspective. In the case of recruitments, Group Discussion can be the starting or at the end, depending on different companies or organizations. It is not fixed that the group discussion is always performed around the table. People can sit in any arrangement, but everyone should be able to see every face. It is not only the usual discussion, but it is also a discussion with knowledge and facts. In the end, Mr Gawas interacted with all of us, as making it a group discussion.

Key take away from this Lecture are

- Positive net cash flow is essential
- We should start with budgeting, expense tracking, increasing savings.
- Secret of increasing net worth is start to earn more.
- Cash in bank is a dead money we should invest it , so that we get the regular income
- What is inflation? Simply it is a increase in cost of living.

Then she talked about simple and compound interest. The compound interest is more profitable than simple interest.
